The RIO COLLECTION is a contemporary case-good collection designed specifically for the hospitality trade. Crafted from select birch veneers and hardwood solids, this group will feature numerous innovations, unprecedented in standard hotel casegoods offerings.

- Integrated LED lighting incorporated into the headboards eliminates the need for cumbersome nightstand lamps.
- Motion sensor night lights—located under the night table drawers—automatically turn on when you step out of the bed. This is especially useful for tired business travelers navigating an unfamiliar environment in the middle of the night.

The HD TV/Hospitality Cabinet is a working media entertainment center replete with integrated I-Pod or I-Phone dock, two amplifiers and speakers (licensed by Apple). This unit features a sliding door over the minibar (eliminates door interference within the room).

- Select birch veneers and hardwood solids.
- Polished aluminum hardware and lighting accents.
- Integrated LED lighting system incorporated into the headboards.
- Heavy-duty ball bearing side drawer guides.
- English and French dovetail construction drawer box.
- Screwed on and recessed back panels.
